

# The Blairmore Graphic

VOL. 2 NO. 31

BLAIRMORE, ALBERTA, FRIDAY, MARCH 19, 1948

\$2.00 PER ANNUM

## Blairmore Legion Elect Officers

During the last two general meetings of Blairmore branch of the Canadian Legion nomination and election of officers for 1948 were held. At the first meeting two weeks ago G. Rees (re-elected) for President and W. Jallep as vice-president were the only nominees.

Last week end the following were elected to the executive: J. P. Cyr, B. Hobson, C. C. Miller, E. G. (Jim) Montalbetti and J. Sharetta.

Harry Lord is the clubs secretary-treasurer, with S. G. Banan, J. Davies and J. Gray as trustees.

The following committees were also appointed: House, E. G. Montalbetti, W. Jallep, B. Hobson; Building, C. C. Miller, J. P. Cyr, J. Sharetta; Entertainment, B. Hobson, C. C. Miller, J. P. Cyr; Credentials, J. Sharetta, E. G. Montalbetti, C. C. Miller; Finances, W. H. Chappell, W. Jallep, H. Lord; Relief, G. Rees, W. Jallep, H. Lord.

## Fred Fisher

The funeral services of the late Fred Fisher were conducted on Friday, March 12, by Rev. Robert Magowan of Coleman in the Bellevue United church. Interment followed in the Hillcrest Union cemetery. Pallbearers were: George (Doc) McLeod, Bellevue; Gerald Michaluk, Bellevue; Edward Cardle, Bellevue; Robert Dow, Blairmore; Alfred Pitt, Blairmore; and Wallace Smith, Blairmore.

People who spend themselves freely are seldom hard up.

An important angle in public relations consists in presenting the company's policy to the employee and the public, but the policy must be a good one to create the proper impression.

"Serve the Church that the Church May Serve You."

### CENTRAL UNITED CHURCH BLAIRMORE

Rev. James McKelvey, Minister

Services Sunday next:

11.00 a.m., Senior school.  
2.00 p.m., Junior school.  
7.30 p.m., Public Worship.

### ST. LUKE'S CHURCH, BLAIRMORE (Anglican)

Pension Sunday

Evensong 7:30 p.m.

Ven: R. Axon, B.D.

Church school 11:00 a.m.

### SALVATION ARMY, COLEMAN

Captain and Mrs. T. Smith,

Officers in charge.

Sunday services:

11 a.m., Holiness meeting.  
2.30 p.m., Directory class.  
8 p.m., Sunday school.

7.30 p.m., Salvation meeting.

Tuesday: 7.30 p.m., Red Shield Auxiliary and Home League.

Thursday: 8 p.m., Praise meeting.

Funerals, dedications and marriages on application to the local officers.

### HILLCREST UNITED CHURCH:

Services every Sunday at 12 noon.

### BELLEVUE UNITED CHURCH:

Services at 7.30 p.m. every Sunday.

### COWLEY UNITED CHURCH:

Services alternate Sunday mornings at 11 o'clock.

## Alberta Music Board Survey

The purpose of the Alberta Music Board is to encourage greater interest in music throughout the province. Its members are Professor John Reynolds-King, Chairman; Mr. H. G. Turner, Bishop A. H. Sovereign, Mr. Clayton Hare, Mrs. G. M. Egbert, with Mr. R. MacDonald, Secretary.

A few months ago, in pursuing its objective, the Alberta Music Board initiated a survey through the Cultural Activities Branch of the Department of Economic Affairs. From this the Board hoped to ascertain the attitude of various community centres throughout Alberta in regard to music and also the facilities for music appreciation and participation which already existed. It was felt that the results of the survey would provide the basis for steps which are to follow, and further that contacts would be made in this way which would assist in the work of the Board.

The survey was in the form of a questionnaire, mailed out to approximately 1,250 music teachers, civic leaders, school supervisors and principals, as well as others known to be interested in musical activities.

Allowing for duplication, and the number sent out for purely publicity purposes, it was decided that 1,000 was a fair basis for the survey. Of this number, then, 325 or a little over 32 per cent were returned. This figure is well above the average to be expected from a survey in other fields, a fact which in itself gave considerable encouragement to the Board in its undertaking. Out of the 325 questionnaires returned, some 55 were not completely filled out, and so the remaining 270 have been used for our statistical purposes. The Board felt that from the completed questionnaires, it was possible to draw a picture representative of the province as a whole.

Noteworthy at this point is the fact that, while the survey was primarily directed toward the field of music, considerable information was obtained which will prove invaluable in the development of other cultural activities. For example, a section of the questionnaire dealt with halls, equipment and other facilities already available. The information returned is equally useful in regard to music, drama and other cultural activities in the community concerned.

It is therefore to acquaint you with the results obtained from the survey that this summary of the 270 completed questionnaires has been prepared.

As a result of the survey a file of approximately 950 leaders in cultural interests and local musical talent within centres throughout Alberta has been built up. The file includes music teachers, talented performers, leaders in musical activities and people capable of organizing musical functions in their respective districts. There is no doubt that these local contacts will prove invaluable as the work of the Alberta Board of Music progresses.

In regard to rural areas now without music teachers, the questionnaire revealed that 3,723 children would take advantage of private and class lessons if these were made available to them. Specifically, 155 communities indicated the desire for private lessons in piano, forte, violin or wind instruments.

An overwhelming majority of the districts rejected the idea of settlement houses such as the University Settlement House, Toronto, which carries on valuable community projects out of school hours, including those of its music school. The tally in answer to this question was 261 against, and 9 in favor of the proposal.

Of the 270 centres reporting, a total of 885 halls, churches, schools, theatres and auditoriums suitable for holding concerts was indicated. In addition

IN WAR, AND NOW IN PEACE  
THE WORK OF MERCY NEVER ENDS...

to these, 96 centres reported a movement to build a new Auditorium or Community Centre as being actually underway, with a further 86 expressing a desire to build if leased or if financial assistance could be obtained.

Referring to the existing halls 378 contain a piano of average quality, while in 17 the pianos are suitable for concert work; 110 pipe organs are available, and 41 halls contain reed organs. There are 13 gramophones in good condition and 11 sound film projectors. Either A.C. or D.C. power is available in 147 halls at present, leaving well over 700 of them without electricity. An even greater disparity is shown between numbers for which good acoustics are claimed, as only 39 are said to possess this important quality. This, however, may be the result of establishing an extremely rigid standard for availability.

Seating capacity of the halls varies widely, of course, ranging from 100 to well over 800 in some instances. The average is probably in the neighborhood of 200.

Summing it up, the fact that the province generally is poorly equipped in regard to physical resources for musical activities is inescapable. This is a community responsibility, and, as we have seen, a considerable number of centres are taking steps to help the situation. To encourage greater progress in this direction will be an important phase of the work of the Alberta Board of Music progresses.

Something of the scope of the field for music appreciation is revealed in the answers to this section of the questionnaire. It is true that 232 centres expressed a willingness to "turn-out concerts" but it is also true that 38 communities are listed as having no desire to do so. Of the first number a total of 688 concerts was considered sufficient for one year's fare, many of the districts designating an annual concert only, others going as high as six or seven during the year, with the average midway between 2 or 3.

With reference to the type of artists with the most drawing power here are some duplications in the returns. This would indicate, for example, that many of the communities would like to hear from both local artists and artists from outside centre. The largest preference

was shown for concert artists, orchestras and choirs from the cities, the figure in this case being 157, while 101 expressed a desire to hear artists from local communities and 132 for local artists.

There were 217 centres which were known as being able to provide local talent, leaving 53 districts in which talent was not thought to be available.

Interpretations placed on many of these figures must remain more or less arbitrary, but in this case it would be evident that there are more local artists than those who would appreciate an opportunity of listening to them. It is also regrettable that the majority of centres are shown as being unfavorable to a subscription series of concerts, even where the possibility of a subsidy was suggested. The number rejecting this proposal was 161, while those communities signifying its acceptance totalled 109. In regard to the former approximate number of subscribers added up to 12,735 or an average per community of 116.84.

On the other hand programs consisting of musical items together with non-commercial sound films registered as extremely popular. Those favoring this type of program numbered 193, with 77 against.

In regard to the local talent which could be arranged for a half-hour radio broadcast, 139 communities indicated that it was available, and 131 did not believe they could manage it.

A particularly lively interest was displayed in suggesting methods to assist the communities in the enjoyment of music. Most of the suggestions fall into several large classes, and all show considerable practical value. If we were to offer any criticism of the suggested methods, it would be that many of them could be carried out with little or no outside aid.

For example, many advocates advocated greater use of gramophones and record players in the schools. In view of the fact that music appreciation is an accepted part of the Alberta curriculum, and that assistance in acquiring such equipment is available through the Department of Education, there seems to be no reason why this measure has not been adopted already.

Another considerable group advo-

cated training of music specialists or those qualified to train the children in musical activities. It was felt that emphasis could well be placed on all cultural activities within the school in much the same way as shop work and home economics are carried on at the present time.

Another practical and worthwhile suggestion involved the greater use of radio programs. It is possible that a program designed especially for music appreciation could be arranged at a later date. In the meantime, those going over the air might be used to greater advantage, particularly in the schools. At the present time programs for this purpose are broadcast under the direction of the Department of Education by three radio stations, and may be enjoyed without the supervision of specially trained personnel. Here again it seems to be a question of teachers and others recognizing the value of such programs and seeing that their classes are given the advantages offered.

The final group of suggestions which we shall mention recommended "more concerts," presumably with out-of-town talent. It was believed that these would stimulate interest in music more than any other measure.

In the question on what may be termed the "popularity rating" of various types of music, jazz and other dance music won handily, with 61 per cent of the local residents estimating to be familiar with this class. Folk songs, ballads were next with 30% of the people. Handel's Messiah was known to 16 per cent; standard symphonies to 11 per cent; and fugues trailed with only 7 per cent of the people being familiar with this form of composition.

Opportunities needed were in many cases linked up with the suggestion for stimulating interest in musical activities. These revealed a lack of suitable physical resources ranging from halls and auditoriums to phonographs and radios. In this section also the emphasis swung to the need of more equipment available through the school. Musical leadership, music teachers, special teachers, proper facilities in school was the common cry. Here again it seems possible that greater

employment by the school di-

## Pass Rebekahs Attend Assembly

Mrs. Fred Padgett has just returned from Edmonton, after conducting the Annual Sessions of the Rebekah Assembly of Alberta, held at the Masonic Temple, Edmonton, and reports a very harmonious and successful session. Attending sessions with Mrs. Padgett were, Mrs. B. Miles, Assembly Chaplain, Mrs. J. Ruymakers, Mrs. M. Mark, Mrs. J. Cousens all of Bellevue and Mrs. J. Jackson and Mrs. M. Cornett Outside Guardian of the Assembly, of Coleman.

Mrs. Padgett has just finished a very successful year as the President of the Rebekah Assembly. This work has taken her over 3000 miles during the last year, having travelled as far as Jasper to the Northwest, Vermilion to the Northeast. She has visited 35 lodges during the year. Now she has joined the ranks of the Past Presidents.

All the sessions were well attended, degree work exemplified for competition, with Cavell Lodge of Ryley being the winner with the high marks of 99.4. Four teams competed, two from Edmonton and one from Lethbridge and the winning team: About 300 delegates were in attendance at the sessions. The Civic reception and the degree of Chivalry was witnessed by about 500 people, this being opened to the public.

A grand banquet and dance was held in the Masonic Temple on Thursday night, this was a good time and a grand finish to a very busy week.

Mrs. Padgett has also attended the Sovereign Grand Lodge and the Association of Rebekah Assemblies, in Winnipeg, Manitoba, during her year of office. Mrs. Padgett received some very beautiful gifts during her year as President.

The weather was very cold during the week, but a very happy time was reported by all attending. The ladies are all back now and attending the regular duties of their homes.

## Pass Service Club Seeks to Keep Swimming Pool Open

Unless financial aid is forthcoming, the Pass Service Club and other organizations throughout the Pass is has been stated that Turtle Mountain Playgrounds swimming pool will not operate this summer.

This decision was made known to Coleman Lions club on Monday evening when a delegation of three from Blairmore Lions club met with the Pass Service Club and gave a brief summary of conditions which have prevailed during the past several years.

It was revealed that the proprietors had been taking a license fee of \$100 each month, amounting from \$800 to \$1,000. Water cost \$40 per month, light and power \$50 per month, swimming instructor \$150 per month, and attendant \$80 per month, expenses such as chemicals for the water, coal and miscellaneous items.

It was thought that if \$3,000 could be raised it would be sufficient to operate the pool during the summer months. This money could be raised through carnivals, raffles, etc.

Lions clubs in Blairmore and Bellevue had chosen committees to study the problem and determine what to do. Blairmore Elks had also chosen a committee and Thursday evening Coleman Elks would debate the subject and very likely select a committee.

Coleman Lions appointed F. R. Duncan and Herb Hewitt as its committee members.

A meeting of all committees is to be called at the hall next week to discuss the subject thoroughly and determine how to raise funds to maintain the pool's operation.

Coleman Lions club suggested that in order to gain greater patronage arrangements be made with one of the Pass bus owners to make special trips to the pool each day. —Coleman Journal.

## New Role For Princess Margaret Rose? May Serve As Good-Will Ambassador

By JUDY PECK  
Central Press Canadian

BRITAIN'S top-hatted, soft-spoken envoy to the world over work ceaselessly to create and keep good friends of the British empire. However, as soon need to do so will be a slim, smiling 17-year-old girl.

She is Princess Margaret Rose, second daughter of King George and Queen Elizabeth.

Watching how her uncle, the Duke of Windsor, Prince of Wales, created immense good will for the empire, British diplomatic circles see high possibilities of Princess Margaret Rose serving her king and her people in like manner.

The Duke of Windsor—Margaret's father—on the world should not be difficult, for already the young princess has displayed her inherent possibilities.

It is only now, however, with Princess Elizabeth safely married and temporarily out of the way that Englishmen decided that the time is ripe for Margaret's debut into the public eye.

Just why the grooming for Margaret's salesmanship job did not begin sooner is a matter of conjecture. Some believe it was that was unusual for the heiress presumptive, Elizabeth, to play understudy to a little sister.

They implied that had Margaret been given more notice by the Fleet street scribes the campaign to "put Elizabeth across" would have suffered.

However, that's all over now and the British press can begin concentrating on the young girl who may one day be of infinite value to the British empire.

Is she really like—this younger daughter of the House of Windsor? The world is now beginning to find out.

An English nobelwoman, comparing Princess Elizabeth with Margaret, comments that "she is the older sister, whom nature it is to 'warn, to comfort, to command'."

Princess Margaret Rose.—To British eyes—a billion-dollar smile

Margaret, the writer poetically hints, "is the girl to startle, to waylay"—and a little less poetically, to put across another "Buy British" campaign in the world market.

To put it another way, Margaret is a press-agent's dream—even a palace-cured press-agent. Slim, blue-eyed, with a wide smile, the princess is already of such stature as to cause one of her father's subjects to stily remark that:

"The Old Boy'll have to keep 'e eye on that one, you can be sure."

Just now, Margaret is going through the same teen-age ups and downs as her mother, the popularized hats and rather violent splashes of lip-stick, her parents nonetheless take these manifestations of growing up with a royal grace and aplomb.

Temporarily, the princess is of somewhat gayer nature than Elizabeth. An excellent mimic, she has more than once thrown the Windsor doors wide open to the table of laughter with her imitations of some very important persons greeting her for her new job.

One incident that reveals more than any other the less regal side of Margaret's life is often recounted by adoring Englishmen.

The royal sisters were guests of honor at a rather formal and stuffy dinner party, and, doing what came naturally, they stepped out on to a balcony with their dates for a breath of fresh air.

After a time, Princess Elizabeth, thoughtful of her duties to the empire, said: "I think we'd better be getting back or we'll be missed."

To this, Margaret rather testily replied: "You go back and take care of yourself, stay here and take care of myself."

Lest this story be misleading, it should be noticed that Margaret has a serious side—a side which would lead her to respond readily to the call of duty.

As a schoolgirl, she speaks French and German fluently and can hold her own in any conversation on current affairs. She is also a budding author, having penned the pantomimes staged by the children of Buckingham Palace at Yuletide.

One of the many times these performances incidentally that Margaret best displayed her characteristically agile mind.

Margaret's role in the self-authored work was that of an angel. Draped in flowing garments, wings of ethereal, though cardboard parchment, the princess' mother administered: "You'll have to be very good if you want to play your role well."

"Well, I may look like a holy angel," the quick-witted young lady replied, "but I certainly feel like a holy tennis player."

If Margaret is to play an important role in empire affairs, it is only natural that the question of a husband for her should be of great interest.

Princesses have already begun "marrying off" the princesses to royalty both near and afar.

Ex-King Michael of Romania, for example, was considered a very likely contender for Margaret's affections until his recent application to wed Princess Anne of Bourbon Parma.

Whatever the case, Princess Margaret will undoubtedly be hampered by fewer restrictions in choosing a husband, and greater guidance in her career, than was her sister.

There have even been hints that she would wed a commoner. Rumors that the king had forbidden Margaret

## WORLD HAPPENINGS BRIEFLY TOLD

The Canadian government has drawn its first \$50,000,000 of a \$200,000,000 line of credit at the export-import bank, it was announced.

Royal National Lifeboat Institution boats went to the help of 579 vessels in 1947, saved 427 lives and lost eight lifeboats.

An egg and wine glasses were found unbroken in the wreckage of an airliner which crashed at Ruislip, Middlesex, England, recently.

Golf, taught by a professional, is to be part of the curriculum of an evening school in Edinburgh, Scotland.

Alberta's private detectives, under a bill tabled in the provincial legislature, are to be licensed and required to post a bond of \$2,500 each.

Gold holdings of the United States Government has gone above \$23,000,000. This is a record high for any country in history. The United States now owns more than three-fifths of the world's known supply of monetary gold.

Quebec had a record beef output of more than 102,000 tons, worth about \$17,600,000, in 1947. This state provided about 85 per cent of all Australia's export beef last year.

A Roman lamp, dated A.D. 60, was discovered during excavations in a blighted Canterbury cellar.

The first of a new fleet of caravan dispensaries for animals formed to commemorate the services of animals and birds during the war, was blessed in London by the Dean of Westminster.

In 1860, in North Carolina, there were special taxes levied on beaver hats, gold-headed canes, harps, watches and politicians.

## Canadian Winters—Are Exhilarating, Keep Us Hardy, Is The Basis For Health

(The Toronto Globe and Mail)

The weather has lately been setting up records for future generations to look back upon for comparisons with their own "unusual" conditions. Three years ago it was for Toronto the biggest snowstorm on record. Last year there was the wettest, latest spring in two or three generations, and the mildest, driest fall in 100 years.

Royal National Lifeboat Institution boats went to the help of 579 vessels in 1947, saved 427 lives and lost eight lifeboats.

would have remained unchanged.

Of course, cold has its tragic side. There are still people who, to the end, insist that native freeze to death. On the whole, however, the bitter effects of the zero temperatures are less destructive than they were when conditions were more primitive. Those of us old enough to have read "Hiawatha" will recall the descriptions of the severe, less winter, when people froze and starved, unable to find animals or other food in the deep snow. Other writers familiar with pioneer conditions have drawn pictures of a degree of cold we seldom seem to have now.

Despite our unfamiliar surroundings, the increase in the number of cold and similar ills, the Canadian winter is good for us. It keeps us from getting soft, and contributes greatly to the making of a Canadian temperament, very so strongly attested other people. We are inclined to run ourselves down, and to baffle our achievements in various walks of life. But what we have usually made up for in cold, field, health, and exercise, is more effective than taste. What we have failed to do in the arts, for instance, we can balance with physical exploits in conflict with nature. These have their poetry, even if the cadence falls a bit roughly on the ear.

For the young and healthy, cold weather is exhilarating. Note the vast popularity of skating, skiing, and other outdoor winter sports. The cold is a challenge to exertion, and is wise exercise, especially outdoors, in the case of health. But what has its obvious illustration in youth's enjoyment of winter sport, may also be safely carried into the workaday world of economics. Defying the cold, this country has had centuries of experience producing furs and timber, best obtained in winter.

So brief was the interval of warmth permitted by the crowding Polar air masses that Canadians scientists were forced to develop fast-maturing grains and vegetables. This was a great service to the country, and was furthered by the coming of the automobile.

## Red Cross Swimming and Water Program

J. A. MacLeod of Calgary, Chairman of the Swimming & Water Safety Program of Alberta Division CRCS has announced that plans have been finalized to hold the Divisional Aquatic School in Edmonton, Easter week, March 29th to April 3rd.

Special training in the four major phases of aquatics will be presented by a specially assembled staff. Leaders from all parts of the province will be in attendance as well as representatives from organizations vitally concerned in recreational safety and especially the aquatic field and will receive a thorough training in the safe handling of small craft, instructional techniques, stroke improvement, water front control and supervision, life saving and films pertinent to these subjects.

This will be the first combined aquatic school in this province as well as being the largest of its type ever held here. Mr. MacLeod stated that excellent co-operation has been received from organizations interested in small craft safety, life saving and swimming instruction as well as the officials at North West Air Command where the course will be held and the University of Alberta. The Red Cross is co-operating with these organizations to train leaders and instructors which will be needed by communities and camps this summer.

As of today, seventy-five enrolments

have been received. The school is designed to handle up to one hundred and fifty candidates. We urge communities to take advantage of this free training service being offered by the Canadian Red Cross at this time. For further information write to your local Red Cross Branch or directly to the Red Cross Headquarters in Calgary.

## Unemployment Insurance Benefits Hundreds in Windsor

The value of unemployment insurance was vividly illustrated during the recent extreme cold snap in Windsor, Ontario when hundreds of workers became idle due to the enforced closing of various plants.

Unemployment insurance averaging

\$20,000 daily was paid out by the Unemployment Insurance Commission in Windsor during 11 days of the cold weather lay-offs.

The daily average for that city for the previous 11 days, before the extreme cold set in, was only \$6,400.

Lady: "A big man like you might be better occupied than in cruelly catching poor little fish."

Fisherman: "Could be lady, but if this fish had kept his mouth shut he wouldn't be here."

## COWLEY HAPPENINGS

Repair work including insulating on St. Aidan's Anglican church here was completed this week.

A meeting to promote celebrating Victoria Day here on May 24, was held Thursday evening, March 11. Arrangements are underway to make this event a real gala day with horse races, baseball and with all the accompanying items to round out a real day of live sports. With a dance in the evening.

Mrs. Stapleton and her small daughter of Macleod are visiting at the parental home of Mr. and Mrs. Jim Smith, sr.

Leon Lambert who has spent several months in Kimberley, BC, when enroute to his home at Shannavon, Saskatchewan, made a stopover here to spend a few days visiting at the home of Mr. and Mrs. Joe Diamond and family.

Mr. and Mrs. Harold Snyder and their small daughter Joan of Red Deer arrived Saturday to pay a visit at the parental homes of Mr. and Mrs. Jack Stanisby and Mrs. Della Snyder.

A well attended tea and miscellaneous sale of home cooking etc., sponsored by the ladies of St. Joseph's Roman Catholic church, was held in the Masonic hall here Saturday afternoon, March 13.

Mrs. F. A. Tustian sr. was confined to her home through illness this week.

Mrs. Dumont, 71, died suddenly at

her home in the Porcupine hills, Monday morning of this week. Funeral arrangements are being made.

Mrs. Robert Day lent her home on Wednesday afternoon, March 10 when Mrs. Edward Perceval was hostess to the Ladies Aid of the United church here at their monthly meeting with 12 members and two visitors present. A donation of 10 dollars was made to:

"Save the Children Fund". The tea and miscellaneous sale of home cooking etc., which was postponed from Feb. 14th will be held in the Masonic hall here, Saturday afternoon, April 17 and further arrangements were made to build an additional room to their church here.

Any half-way of life can only be half-dead.

A harasser man, father of fourteen children, answered the door one day, to find a man with a black bag standing there.

Come in said the anxious father. I hope you're the piano tuner.

# THE 1948 CHEVROLET

## Newer! Smarter! Finer!

HERE'S THE ONE TO SEE! At the first opportunity come and see it! The new Chevrolet for 1948 brings you new smartness of design, new color harmonies, new interior luxury — an even greater measure of BIG-CAR QUALITY AT LOWEST COST. And with all its greater value, Chevrolet's the lowest-price line in its field . . . the only car in its price class with such Big-Car features as Body by Fisher, Valve-in-Head Engine, Unitized Knee-Action Ride and Positive-Action Hydraulic Brakes. No wonder more people drive Chevrolets — and more people want Chevrolets — than any other make.

# World News In Pictures

**FINAL BRUSH-UP FOR RODEO** — Final preparation for rodeo week at Tucson, Ariz., is being given "Gold Tony" in a Tucson tinsorial parlor. Famous for trick performance, he will take part in the rodeo.

**PREVIEW OF CHICKS** — Revealing in the company of a flock of fuzzy newly-hatched chicks in a spring preview at Hollywood is Sharyn Moffett, charming juvenile filmdom actress.

**ON WITH THE NEW FOR MR. EISENHOWER** — Here's one of the first pictures to be made of Mr. Dwight D. Eisenhower in civilian clothes since his retirement as U.S. army chief of staff and his entry into civilian life. In this photo, made at their Fort Myer, Virginia, home, Mrs. Eisenhower is adjusting her husband's shirt, while the former commander looks down on the scene in the background as a reminder of the past.

**ABANDONED PLANT WAS POWER RESERVE** — A potential 400 horsepower of electricity raced unhampered down the calm Credit river, past a dammed power plant, for a few miles south of Galt, Ont., as the town underwent its first daily hydro blackout of half an hour. Officials believed rationing might have been necessary in this district if the Caledon Electric plant at Galt, on the Credit, had been operating. The plant has been stripped of all equipment and the dam holding back the necessary reservoir of water was blown up last March on orders of the Ontario Hydro.

**TORONTO'S NEW CONTROLLER A HANDY MAN WITH A SKILLET** — Toronto's newest controller, Edward C. Roelofson is seen at home with Mrs. Roelofson and their dog, "Penny". He was elected by city council to fill the chair left vacant by the promotion of Mayor McCallum. Con. Roelofson loves to cook and his idea of fun is to prepare a big roast dinner on Sunday for his children and grandchildren.

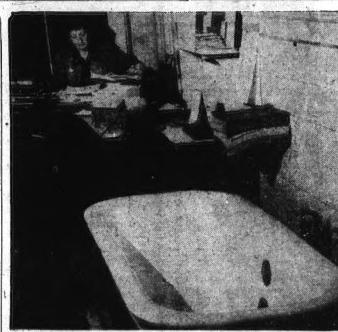

**GIRL ROBBED OF \$40** — Two "tough-looking" men held up Betty Guest, pretty 19-year-old redhead, and escaped with \$40 from a Toronto, Ont., confectionery store. Miss Guest, sister of the proprietor, Iva Guest, said she was walking the store when the two walked in. "One had a gun and he pointed it at me and said, 'C'mon, let's have it.' I gave him the money and he gave it to the other man, who left immediately," she said.

**PRINCE OF DENMARK DENOUNCED THRONE FOR LOVE** — Claim to the Danish throne was renounced by Prince Olaf of Denmark, now known as Count Rosendal, to marry a commoner. Here the count and his bride are seen as they arrived at New York aboard the new Swedish liner, S.S. Stockholm, on its maiden voyage.

**YOUNG GRANDMOTHERS GREET NEW ARRIVAL** — A youthful grandmother, 16-year-old Gladys Scott, 35, of Pittsburgh, Pa., who visits her 16-year-old daughter, Mrs. Alfred Wavers, and her new granddaughter, Bobby Kay. "Mommy" looks young enough for that baby to be a doll!

**TEMPORARY OFFICE FOR WALLACE PARTY** — The bath tub shown in the office of the speakers' bureau in the newly-opened national headquarters of the Wallace for president campaign accents the temporary nature of the headquarters. The nerve-centre of the third party movement was opened recently in New York.

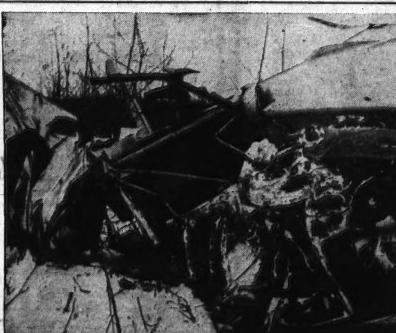

**HOLD NUNS CAPTIVE** — Five Canadian-born sisters are among 84 Roman Catholic nuns held by Chinese communist forces since last November, according to reports from Peking. One of the five is Sister Lilian Wheeler of Cornwall, Ont.

**FIRST CHILD VICTIM OF YEAR** — Terry Wallace, four, of Toronto, was fatally injured and was pronounced dead on arrival at Toronto General Hospital. The driver of the truck involved said he felt a bump and stopped the vehicle to find Terry on the roadway. Police believe the boy was hit by a heavy truck between parked cars and under the back wheels of the heavy truck. He was the first child killed in a Toronto traffic accident this year.

**BELONGINGS SEARCHED FOR PLEDGE** — Personal letters old files and even Christmas cards were scrutinized at the home of Mrs. P. P. Griffiths in Edmonton when R.C.M.P. detachment searched for "evidence" in connection with the Alberta government's charges of "perjury to publish a libel" against a magazine publisher, a writer and Dr. Charlotte Whitton. Mrs. Griffiths, shown here, is secretary of the Edmonton I.O.D.E.

**PASSENGER KILLED, PILOT HURT IN PLANE CRASH** — A passenger in a private, two-seater plane which crashed near Haliburton, Ont., Moise Charbon, 23, of Notre Dame de la Paix, Que., was killed. Police are investigating the accident, which occurred five minutes after the take-off. This is the wrecked aircraft.

**CONTENDER FOR CANADA'S YOUNGEST GREAT-GRANDMOTHER** — Great-grandmother at 57, Mrs. Herbert Gilbank, of Woodbridge, Ont., is a contender for title of "youngest Canadian great-grandmother." She is seen with her youngest daughter, Mrs. Inez Bedlam, and photo of her first great-grandchild, Linda June Eggers, of Chicago.

**KEEP DOWN THE COST PER ACRE**  
The oil you use in your tractor is your insurance against breakdowns, delays and costly repair bills. Using the right grade of the right oil will definitely keep down your cost per acre.  
That is why we recommend MARVELUBE Motor Oil. It is recognized as Canada's leading motor oil—used in more farm machines and motor cars than any other oil you can buy.  
Why take a chance on inferior quality when you can use the leader at no extra cost? Fill up with tough, long-lasting MARVELUBE and your engine will stay clean longer and free from damaging deposits. You'll save money in the long run by using MARVELUBE, Canada's favorite motor oil.

**Local and General Items**

The Editor will be glad to receive items for this section, regarding visitors entertained, parties leaving for holidays or short trips, bridge parties, teas, showers, presentations, anniversaries, etc. Phone items in to 11 or hand them in at The Graphic office not later than Thursday evenings.

Mr. J. McAndrew of Calgary is visiting his sons, John and Douglas.

Mr. Tom Gagne and son Ronald of Blairmore spent a few days in Macleod this week on business.

A number of Blairmore's young men returned to Kincardine last week end.

Miss Margaret Sinal, of the Bellevue hospital staff, is on an extended visit with friends in Los Angeles.

"Billy" Womersley received facial injuries while playing hockey last Tuesday.

Mrs. D. Walker of Blairmore, underwent an operation in Calgary last week end. Her condition is reported favorable.

Miss Violet Wilson of Coleman is spending a few days with her brother-in-law and sister, Mr. and Mrs. Ian Walker.

G. Rees leaves for Calgary on Monday to attend an executive meeting of the Alberta Municipalities organization.

We are a little upset this week. P. Giacella has moved in to brighten up the interior of our premises, will paint, wash, etc. and everyone knows what that means.

The sermon subject at Central United church on Sunday evening next will be, "The Cross is the Key". The girls choir will be in attendance. You are cordially invited to be present.

Some people look good but are not happy. Some look happy but are not good.

**THE FAMILY CHAMP!**

**"Fresh up" with 7up**

**SLENDER TABLETS** are effective. 2 weeks' supply \$1; 12 weeks \$5; at Blairmore and Coleman Pharmacies.

**YOUR GIFT** to the Canadian Red Cross enables you to bring help, comfort — life itself — to the needy and the stricken.

When disaster strikes, you are there with food, clothing and medical aid. In isolated districts where the doctor is beyond reach, you establish Outpost Hospitals. You provide free blood transfusions; set up additional blood donor clinics. You teach first aid, swimming and water safety. You operate Red Cross Lodges at Military Hospitals, so that wounded veterans have a place for recreation and for receiving their relatives and friends.

... You become a partner in all the missions of mercy carried out, in peace as well as war, by Canada's skilled, devoted Red Cross workers.

**Reach out a helping hand**

**GIVE to the RED CROSS**

**SPACE DONATED BY THE ROYAL BANK OF CANADA**

Your donation will be gladly received at any branch of this bank \*
